Atmosphere Impregnated with Germs

Disease Proved Beyond Question to be Infectious—Is Rapidly Conquering the Country.

LaGrippe is a contagious disease. Its specific germ has been positively identified, and it is transmitted from person to person either by direct contact or by inhaling the germs while they float in the air. It is a dangerous disease, lowering the vitality and wasting the restive power so that pneumonia, heart disease, nervous prostration and in many cases even death may be the result. It is a danger to the community, and it may be driven out and its effects overcome by the prompt use of Dr. Miles' Restorative Nervine.

"La Grippe left my nervous system so racked and shattered that I could not sleep and for two months was under the influence of narcotics. Physicians and friends gave me up to die; but in two days after I commenced taking Dr. Miles' Restorative Nervine I began to improve, and in a month's time I was entirely cured. It is the greatest health restorer on earth."

BILL TO REIMBURSE

Officers and Men For Expenses While on Furlough.

MR. MCLEARY EXPLAINS

That It Is For Medical Attendance, Nursing and Supplies, Which the Government Would Have Paid For Had the Men Been Sent to a Hospital.

Washington, Jan. 20.—Representative McCleary of Minnesota, has introduced a bill authorizing the secretary of the treasury to reimburse officers and men of the army and navy who served in the war between the United States and Spain for necessary and reasonable expenses incurred while on leave or furlough for medical attendance, nursing and medical supplies necessitated by disabilities incurred through military or naval services in said war.

When seen last night, Mr. McCleary said: "I was prompted to introduce this bill by a feeling that equity demanded it. Numerous instances have come to my attention where men were sent home because sick and incapacitated for duty. The folks at home nursed them back to life and rejoiced in the opportunity of caring for their loved ones. But in many instances the expenses for medical attendance and supplies have been a charge that the family could ill afford.

"It seems only just and right that these expenses should be reimbursed by the government in whose service the disabilities were incurred. If the soldier had gone to a military hospital the charges would have been paid by the government under existing law. But there is no law authorizing the payment of such expenses for soldiers absent from their commands on sick leave or furlough. To grant this authorization is the purpose of the bill.

"In preparing the bill I consulted the assistant surgeon general and the auditor of the treasury for the war department in order that its provisions, while dealing justly and generously with the soldiers, should properly guard the public treasury. To this end it is provided that the reimbursement shall be made under rules and regulations to be prescribed by the treasury department, that the rates to be paid shall be those usual in the locality where the services have been rendered, and that to receive consideration claims must be presented within two years after the passage of the act."

FIFTY-FIFTH CONGRESS.

Debate on Expansion and Nicaragua Canal Continued.

Washington, Jan. 20.—In the senate yesterday Mr. Turner (Pop., Wash.) made a constitutional argument on the policy of expansion. At the conclusion of Mr. Turner's remarks Mr. Foraker explained at length statements made by him in a recent speech on the same subject. He said he had no intention or desire to pose as a representative of the administration. Referring to the interested comment, which had been aroused in Great Britain by his statements, he said: "I was not speaking for the administration, and the chill that went up and down the backs of our friends in London was due, perhaps, to a misapprehension as to which of the Ohio senators was speaking."

The Nicaragua canal bill was then taken up and an amendment passed instructing the secretary to not pay out more than \$30,000,000 during any fiscal year for work on the canal.

The house yesterday practically decided the Brown-Swanson election case.

Oh, what a warm welcome the first little traveler whom Heaven guides to the door of a woman's heart receives from the happy mother. Every thought and care is given to the comfort and well-being of the new comer after it has been introduced into the portals of life and taken its place at the family fireside.

Yet during the time when baby is expected few women do all that should be done to insure the little one's constitutional strength and vigor. No mother wants to have a puny, weakly, sickly baby yet unless she herself is entirely healthy in the special, delicate structure which makes motherhood possible, the baby is certain to suffer in some way for her weakness or neglect.

The surest way to avoid this is for the mother to reinforce her own strength by the use of Dr. Pierce's Favorite Prescription during the time of anticipation. It will make her perfectly healthy. It will lighten and brighten the time of waiting. It will make the ordeal of motherhood absolutely safe and comparatively free from pain and will insure a strong, healthy constitution for the baby.

Mrs. Nanette J. Taylor, of Loveland, Hill Co., Texas, says: "I am the mother of eight children. I suffered from female weakness. I tried physicians with no avail. When I last became with child I saw the advertisement of Dr. Pierce's Favorite Prescription. I bought two bottles and took according to directions. When baby was born I had a very easy time and have not suffered one hour since, from female weakness. Baby is as fat and healthy as can be."

Prospective mothers should send to the World's Dispensary Medical Association, Buffalo, N. Y., for a copy of Dr. Pierce's Common Sense Medical Adviser, which will be sent free on receipt of 21 one-cent stamps to pay the cost of mailing only, or 31 stamps for cloth-bound copy.

from Virginia by declining to consider it, thus giving the seat to Mr. Swanson (Dem.), the sitting member. Consideration of the postal appropriation bill consumed the remainder of the day.

RELIEVED OF DUTY.

General Eagan Served With Notice of the Order For His Courtmartial. Washington, Jan. 20.—General Eagan was served with legal notice of the ordering of a courtmartial for his trial just before the close of office hours yesterday. This notice was delivered by the messenger of the adjutant general in the usual course, and had the effect to relieve General Eagan from duty as commissary general of the United States army, pending the conclusion of the courtmartial. The office was placed in charge of Lieutenant Colonel George B. Davis, who has been on duty there for some time as assistant to General Eagan.

Press Dispatches Confirmed.

Washington, Jan. 20.—It was stated at the department of state that dispatches had been received from United States Consul Osborne at Apia, but as to their nature the officials had nothing to say beyond that they went to confirm the press dispatches printed yesterday. Admiral Kautz, the commander of the Pacific station, is now on board his flagship (the Philadelphia), and it was stated at the navy department that he would accompany that ship to Samoa.

Peace Treaty Conference.

Washington, Jan. 20.—The supporters of the peace treaty were in conference among themselves more or less of the time yesterday as to whether they should agree to accept the Bacon resolutions as a condition precedent to the ratification of the treaty. Before leaving the capitol last night, Senator Davis, in charge of the bill, told his friends that they would not agree to the passage of the resolutions.

THE PHILADELPHIA

Sent to Samoa and the Newark to the Pacific Station.

Washington, Jan. 20.—Orders have been sent from the navy department to have the cruiser Newark start with dispatches from the New York navy yard for the Pacific station via the straits of Magellan. The Newark is a powerful protected cruiser of about the same type and power as the Philadelphia, whose place she will take on the station, the Philadelphia going to Samoa. The latter vessel is now at San Diego, Cal., and will not be ordered north to Mare Island, but to save time will take on a supply of coal at San Diego and start at once for Samoa.

Has Received No Orders.

San Diego, Cal., Jan. 20.—Admiral Kautz landed yesterday at Coronado from the Philadelphia and was shown the dispatch ordering his vessel to Samoa. He said no such orders had yet reached him, and that if they did it was doubtful if the vessel would be sent on a long voyage in view of her present condition, which he would make known to the department.

Market Garden of the World.

Washington, Jan. 20.—General Wood before the senate military committee yesterday, replying to a question from Senator Proctor, said that it was feasible to construct a railroad line between Santiago and Havana and that a Santiago firm had agreed to guarantee the funds for the enterprise. He spoke at considerable length in this connection in regard to the resources of Cuba, saying that it could be made the market garden of the world. He thought that this government should grow there the vegetables used by the army in Cuba, and said he meant to confer with the secretary of agriculture on this question. General Wood also expressed the opinion that the native Cubans might be used to an extent as soldiers in the United States army.

Holy Cross College.

Washington, Jan. 20.—Ground has been broken for the foundation of the Holy Cross college to be erected by the Very Rev. Dr. Zahn, provincial of the congregation of the Holy Cross, on land adjoining the Catholic University. The college, in point of architectural beauty, will compare favorably with many of the beautiful buildings for which Washington is noted. The exterior will be of Indiana limestone and Vermont granite. The college will be ready for dedication by October.

River and Harbor Bill.

Washington, Jan. 20.—The river and harbor bill is approaching completion and will probably be given to the public on Saturday of Monday. The members of the committee are guarding their work with unusual secrecy to prevent premature publication of the important items and thus far have been successful. The amount carried by the bill will be about \$13,000,000.

Minister A. C. Harris.

Washington, Jan. 20.—Addison C. Harris, the new minister to Austria-Hungary, called at the state department yesterday, accompanied by Senator Fairbanks and H. H. Hanna. He saw Secretary Hay and discussed his departure. Mr. Harris expects to go abroad in a fortnight. He will return to Indiana today.

RIOT IN A SALOON

Two Soldiers Seriously Wounded and the Barkeeper Fatally.

Chattanooga, Jan. 20.—A bloody riot occurred last night in a negro saloon between the barkeepers and waiters and several negro soldiers of the Eighth United States volunteer infantry now in camp at Chickamanga. A quarrel arose between one of the soldiers and a waiter over a matter of change, when the soldier pulled a pistol and fired at the waiter. The barkeeper and several others in the saloon opened fire on the soldiers and, as a result, Sergeant J. L.

TURF MEN

Largest Trotting Circuit Ever Completed in the West Is Formed.

Chicago, Jan. 20.—The largest trotting circuit ever formed in the west was completed at a meeting of turfmen here yesterday. It is an outgrowth of the Great Western circuit, which sprung up last year, and includes all the big racing associations of the middle west, besides several cities of the Grand circuit.

The important action taken in the meeting were the admissions of Chicago and Peoria, Terre Haute, Louisville and Lexington and four cities of the Grand circuit. The union of these cities with the old members of the Great Western circuit makes the largest continuous circuit in the country.

FEARED THE LEXOW

Clerk of a St. Louis Court Shot \$30,000 Disappears.

St. Louis, Jan. 20.—Albert J. Wagenman, clerk of the court of criminal correction, has disappeared and it is said by his intimate friends that he has confessed to a subversion of witness and jurors fees to the amount of \$30,000. The missing man's friends fear he has committed suicide. Wagenman has filled one term as clerk of the court of criminal correction and was re-elected to the office last fall. Ever since the proposition to institute a Lexow committee and investigate the city affairs of 1897 for the alleged robbery from a safe of funds belonging to the navy paymaster for San Juan de Porto Rico. The prisoners declare, and information from San Juan tends to sustain them, that the alleged robbery was a plot upon the part of Spanish officials to cover up their delinquency and to obtain scapegoats for the Spanish paymaster at San Juan, who, it is further asserted, was probably a party to the dishonesty in appropriating the funds. Following the disappearance of the money at San Juan, some 200 suspects were arrested and they were all released except seven, who were tortured for the purpose of obtaining a confession and were shipped to Havana in March, 1897. They now show the effects of the torture upon them.

The purpose of the meeting tomorrow will also be to perfect plans for the permanent organization of a Taxpayers' Reform league. Persons who are heretofore holding the movement declare it will be conclusively shown that the present high rate of taxation in this county can be reduced. The meeting promises to be an interesting one.

SANTIAGO CUSTOMS

Governor General Brooke Issues an Order That May Cause Trouble.

ORDER NOT MADE PUBLIC

For Fear of a Renewal of Popular Excitement—All Sanitary Work Done in Santiago Must Be Without Money Pay, and For Rations Merely—Better Class of People Worried.

Santiago de Cuba, Jan. 20.—United States military authorities in Havana have cabled the Santiago department an order directing that not a cent of the customs receipts of the department is to be expended without the permission of Governor General Brooke. The order also directs that the greater part of the sanitary work performed shall be done without money pay and for rations merely.

The directions regarding the customs funds have not yet been made generally known. As most people, relying upon a recent dispatch from Dr. Joaquin Castillo, now in Washington, have regarded this point as definitely settled in favor of Santiago, it has been considered advisable thus far not to allow the order in question to become public, lest there be a renewal of the popular excitement provoked by the issuance of the original order for the concentration of customs at Havana.

Intelligent Cubans, who are in possession of the facts, however, are greatly worried over the situation, as are also the Americans, for this and other recent orders virtually reduce the military governor of the department to a mere automaton.

Such a policy as is now suggested, regarding the work of sanitation, might have been applicable in July and August last, but is certainly not under the changed conditions today.

Very likely the sanitary conditions at Havana now resemble those of Santiago then. In any event, letters and dispatches received from the capital show dense ignorance regarding the province.

SEVEN MEN

Imprisoned and Tortured to Shield Dishonest Spanish Officers.

Havana, Jan. 20.—The American board of pardons has recommended the release from jail of seven men who have been confined here without trial since 1897 for the alleged robbery from a safe of funds belonging to the navy paymaster for San Juan de Porto Rico. The prisoners declare, and information from San Juan tends to sustain them, that the alleged robbery was a plot upon the part of Spanish officials to cover up their delinquency and to obtain scapegoats for the Spanish paymaster at San Juan, who, it is further asserted, was probably a party to the dishonesty in appropriating the funds. Following the disappearance of the money at San Juan, some 200 suspects were arrested and they were all released except seven, who were tortured for the purpose of obtaining a confession and were shipped to Havana in March, 1897. They now show the effects of the torture upon them.

Conferring With Apostolic Delegates.

San Juan de Porto Rico, Jan. 20.—The Roman Catholic clergy and teaching orders are conferring with Archbishop Chappelle, apostolic delegate to the West Indies, concerning the title to certain property claimed by the military and insular authorities. They assert that under article 8 of the treaty of peace between the United States and Spain, church and school property is protected. Recently, however, one of the Roman Catholic teaching orders was ejected from a building in San Juan.

Universal Indignation.

London, Jan. 20.—The Madrid correspondent of The Daily Chronicle says: "The constitutional guarantees have been virtually suspended against Carlism. A Carlism propagandist, who was carrying documents from headquarters, has been arrested in Valencia. Senor Sagasta's determination to adhere to his tottering power causes universal indignation unqualified since the capture of Santiago."

Russia's Idea of Disarmament.

St. Petersburg, Jan. 20.—The Russian government has ordered a new cruiser of 6,350 tons, to be constructed at the Vulcan shipbuilding yards, Stettin, Prussia. It has also been decided to build in Russian yards three battleships about 13,000 tons each and two cruisers of 6,000 and 3,000 tons, respectively. Numerous torpedo boats are now in course of construction under government orders.

MRS. ANNIE E. GEORGE

Indicted For Murder in First Degree For Killing George D. Saxton.

Canton, O., Jan. 20.—The grand jury yesterday returned a true bill against Mrs. Annie E. George for murdering George D. Saxton last October. The indictment is for the first degree and the penalty is death by electrocution. Saxton was a brother of Mrs. William McKinley. The president and Mrs. McKinley were called to Canton for the funeral of Saxton. Of course, all the proceedings of the grand jury were secret. At the coroner's inquest it developed that no one saw the shooting, but circumstantial evidence indicated that on the night of Oct. 7 Saxton was shot as he was about to enter the residence of Mrs. Eva A. Althouse, widow of the late George Althouse. Five shots were fired, three taking effect. Saxton died before any physician could reach him. It developed that Saxton had transferred his affections from Mrs. George to Mrs. Althouse. Mrs. George and her husband separated because of jealousy.

A GOOD SUBJECT

Remarkable Experience of a Hypnotized Man at Independence, Kan. Independence, Kan., Jan. 20.—A strange case of hypnotism has occurred here that is attracting a great deal of attention. Professor Elmer E. Knowles, while giving an entertainment in the opera house here, offered to put any person to sleep for 48 hours. No one could be found who was willing, but one volunteered for 24 hours. He was put to sleep Monday night. All that night and next day he slept soundly and could not be aroused. Wednesday Knowles was taken sick, and many feared that he would lose his hypnotic powers and not be able to bring the young man to a conscious state again. At the first attempt he failed, but Thursday morning he was successful in awakening the subject. The awakening was violent, it taking five men to hold the subject for a few seconds during the change from the hypnotic state. During all this time Knowles retained a complete control over the subject.

GRAINMEN ARRESTED

President of the Kansas City Board of Trade Among the Number. Kansas City, Jan. 20.—Grainmen, bucketshop and dynamitshopkeepers generally to the number of 17 were arrested by the police yesterday under the new antipoolroom law. Included among them was John W. Moore, president of the board of trade. The arrests were made on warrants issued by D. A. Brown, city attorney, under the section of the law prohibiting betting on any "event," the attorney holding that buying and selling on margin brought the grainmen under the law.

The list of firms on which warrants have been served includes some of the best known grain firms in the city, some of whom have been doing business for years.

KLONDIKE NEWS

Sixty Men With \$400,000 In Dust. Typhoid at Dawson.

Victoria, B. C., Jan. 20.—The steamer Danube has arrived from the north, bringing about 60 men from Dawson and Atlin, with about \$400,000 in gold dust. The Dawson men say the Upper Dominion creek is panning out well, running from \$2.50 to \$4 a pan. There are still 15 tons of Canadian and American mail at Tagish waiting to be forwarded. A great deal of typhoid fever is reported at Dawson, some say fully 800 cases. Seven men have been frozen to death in the Klondike this winter.

The trail to Atlin is reported in good shape. Returning miners unhesitatingly condemn the alien exclusion act, saying it will retard the development of the country for generations.

Seattle, Wash., Jan. 20.—David Williams, ex-surveyor of Kitsap county, shot and killed his wife and then committed suicide late yesterday at his home near Silverdale. The only cause that can be assigned is insanity. Williams has his own life Williams shot himself three times with a shotgun. Two hours elapsed between the first and third shots.

MAYOR TAGGART

Gives Up All Hope of Seeing His Daughter Alive.

Scranton, Miss., Jan. 20.—The tug Leo returned yesterday from Chandelier island, not having obtained any tidings of the Paul Jones. The story that crew and passengers of the Paul Jones stopped at Chandelier island is without foundation. Mr. Taggart has given up all hope of seeing his daughter alive.

FRIDAY, JANUARY 20, 1899.

The old free coinage argument that we are a debtor nation is fast disappearing under the reign of prosperity and we are entering the number of creditor nations.

The delinquent tax list published in another column of this issue shows fewer delinquents in Seymour than for some time. This speaks well both for the taxpayers and for the efficiency of Treasurer Clark as a collector.

COLUMBUS pays their councilmen at the rate of \$6.25 for each regular meeting, and yet one of the members of that body disappeared mysteriously several weeks ago and has not since been heard from. Up to that time it is said he drew his salary promptly, proving his industry as a high salaried official.

One of the things that must be avoided in the county and township reform movement is an increase in the number of officers that will necessitate a corresponding increase in the expense of conducting affairs. What the people want is not an increase of the tax burden, but a decrease wherever it is possible with an improved management of county and township affairs.

RECENT developments in Shelby county as to the manner of letting charge contracts are sufficient to convince the taxpayers there that there is need of reform in county government. It is quite probable that Shelby county's representative in the legislature will vote for the reform bill. The present system has been expensive to his constituents. What is true in Shelby county is true to a greater or less extent in many other counties.

Just how a man drawing a salary of \$4,000 or \$5,000 a year as the official head of one of the state's institutions can find time to leave his work and spend most of his time during a legislative session at Indianapolis as a lobbyist is remarkable. Men drawing such salaries from private funds have their time so thoroughly occupied that they can not do their work and that of the legislature too. Why should not men in the employ of the state, whose salaries are paid by the taxpayers, be as thoroughly employed as a man in the employ of a firm or corporation and paid from private funds?

The surprising statement is made by the St. Louis Globe Democrat that in the election last November the state of Georgia cast a considerably smaller total vote than that of St. Louis. So did Alabama, Arkansas, Florida, Louisiana, Mississippi and South Carolina. The aggregate vote of St. Louis was larger than that of Florida, South Carolina and Louisiana combined. Even the vote of Tennessee was barely double that of St. Louis. The vote of Georgia, the second most populous state in the south, was only 69,338. Georgia cast a comparative small vote in 1896, a heavy falling off from its total of over 220,000 in 1892. This is not a condition that is for the best interest of the country, nor do we believe it will be a permanent condition yet it deserves the careful thought of southern statesmen.

Considering Proposed Amendments to Fee and Salary Law.

Coleman V. Pleak, auditor of Decatur county, was here this morning on his way to North Vernon where the county officers of the Fourth district, both democrats and republicans meet today to consider some amendments to the fee and salary law. Sheriff Goss and Recorder Bruning of this county, are among those in attendance. It is proposed to re-rate the salaries, as it is claimed by some that the law as it now is fixes the salaries too high in some cases and not high enough in others. The salaries are not relatively equalized properly. They are generally high enough and any movement to advance them would not be approved by the people.

Legislative Comment.

Senator Hubbell's bill, regulating telegraph companies, re-enacts an old law. It provides that where a telegraph company fails to send a telegram it is liable to a judgment of \$100.

† † †

Senator Culbert's bill on prisons, introduced yesterday morning gives greater powers to the legislative board, and applies to all the convicts in the State's prison, except those guilty of murder in the first and second degrees and treason.

† † †

A bill introduced by Senator Patten will apply especially to the city of Seymour, though that city is not named. Seymour is considering the purchase of water works. Under this bill the common council can pay a certain amount in cash and issue bonds on the plant for the rest, the interest on the mortgage to be paid by the city as a hydrant rental.

Government By Pupils.

The public schools at Washington will try a plan of self government by the pupils that is said to have been very successfully tried in some of the Chicago schools.

By this system every pupil is a "good citizen" and he wears a button. By being a good citizen he is accorded many privileges, such as leaving the room without permission, speaking to another pupil without permission and moving to any part of the room. When he finishes his lesson he is permitted to peruse the different periodicals that will be furnished. He also will be shown many other things.

The first of every month the good citizens in each room elect from their number two officers called "tribunes," a boy and a girl, whose duty it shall be to see that the good citizens do not disobey the rules or abuse the privileges given them. The good citizens will be spoken to by the "tribune" for three offenses, but after that if he offends, his good citizen button will be taken from him and it cannot be restored until he asks for it and agrees not to disobey the rules. These persons are called "bad citizens" and have the special privileges taken from them.

The purpose of the system is to train the pupils to do right both in and out of school.

LaGrippe Successfully Treated.
"I have just recovered from this second attack of la grippe this year," says Mr. Jas. A. Jones, publisher of the Leader, Mexico, Texas. "In the latter case I used Chamberlain's Cough Remedy, and I think with considerable success, only being in bed a little over two days against ten days for the former attack. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy as I had to go to bed in about six hours after being 'struck' with it, while in the first case I was able to attend to business about two days before getting 'down.' For sale by C. W. Milbous.

SHADOWS ON THE WALL.

When the room is tidy,
Toys are not all over,
Eyes are growing sleepy,
Skies are turning gray,
Comes the children's clamor
As they round me throng,
Fairly low's exhausted,
Sung each nursery song,
In the mellow lamplight
Hushed their voices all,
Whilst they watch me making
Shadows on the wall!

Through the happy silence
Rings their laughter low
Against the wall there
Shadows come and go,
Nurse, unseen, unheeded,
Watches from the door,
Whilst the children's voices
Plead for just one more!

One by one they leave me,
Till I sit alone,
Seeing in the twilight
Shadows of my own,
Long forgotten fancies,
Dreams in olden guise,
Till from heart to soul
Tears, unbidden, rise.
Happy, happy children!
Time has joys for all;
Only some are fleeting
Shadows on the wall!

COURIERS BACK NUMBERS

No Longer Any Need to Go Through Europe With Them.

Up to times within the memory of living men almost no one of means traveled through Europe without a courier. Before railroads were built and before good guidebooks were printed he was almost indispensable. His tribe survives, but in greatly diminished numbers. To the self-reliant traveler he is of no use whatever. Indeed he is frequently a positive incumbrance, and worse. To my mind one of the great pleasures of travel is in learning to travel by myself. There are satisfaction, pleasure and education in planning routes, deciphering time tables, making bargains, learning by observation the lay of the land.

The time may have been when a courier could save a traveler more than his cost. Most certainly that is not the case now. On the contrary, as he gets a percentage on every purchase his party makes, which, of course, comes out of the purchaser in increased price, and as it is often for his interest to advise the more costly route, the more costly hotel or the more costly excursion, he eats up much more than his wages, while saving positively nothing. Bean declares that in a two weeks' trip in southern Spain, which he made side by side with a couple having a courier, he invariably reached the hotel first, got better rooms and saw all the sights to his good advantage, yet the courier was, of his kind, an expert. The fact is that travel has become so general, tourist companies, railroads and landholders have so well studied its needs, books are so plentiful, that you couldn't very well get off the track or have a mishap if you tried.—Herbert Luce in "Going Abroad."

"Well, I find \$20 for that parrot too high. You say he can't talk."
"No, he can't talk, but he understands everything that's said!"—Fleegende Blatter.

Many of the vegetables in daily use on our dinner tables were known to very remote times. It is known, for instance, that asparagus was grown 200 years B. C., while lettuce was cultivated so far back as 550 B. C.

THE BOER AT HOME.

He Does Not Hate All Englishmen, Only Some of Them.

Bryant Lindley met a Boer and asked the way. He received a surly answer which amounted to "Go to the devil!" Upon this he protested angrily, and the Boer rejoined in equal bad humor. At length the Boer shouted, "What's your name anyway?" and when he heard it his manner altered at once, and he exclaimed, "What, and are you the son of the great American missionary Daniel Lindley?" My friend gladly pleaded guilty to this charge, and the surly Boer became at once the most hospitable friend and begged forgiveness for his rudeness. As they rode together toward the road which my friend was seeking the Boer recounted with grateful satisfaction the many good deeds performed by the elder Lindley, but of them all the best to him was that represented by a sound thrashing he had once received at the hands of this venerable missionary. For it appeared that this particular Boer in his youth had been sent to a school taught by Lindley; that the Dutchman was noted for his size and strength and had bragged of his capacity to down the teacher, and had actually sought the opportunity by refusing obedience. But he soon learned that he had made a gross mistake, for this particular missionary was also a noted athlete and gave him such a hiding with a bullock whip that the young giant roared for mercy before the whole school. And for this and similar deeds the Boers loved the elder Lindley, and this particular Boer venerated his memory.

On the evening in question, when the two men were about to part, the Boer, who had been so uncivil at first, begged Lindley, with tears in his eyes, to grant him a great favor for the sake of his conscience. "Your father," said he, "did me a service so great that I can never repay it—he gave me the worst thrashing I ever had—he saved my character, and I am a better man today, thanks to him."

My friend cheerfully promised to grant the request, puzzling his head as to what was going to be required of him. The Boer was mounted upon an excellent horse, which he prized beyond anything he owned. He dismounted, put the reins in Lindley's hand and then ran away into the black forest as though the devil were after him. Here was no Indian giving. This Boer had put it out of the power of the American to discover the name or whereabouts of the strange giver.

It is a story typical of the Boer and serves to illustrate many apparent contradictions in his nature. He does not hate Englishmen in general. He hates only those who seem to threaten his peculiar quality of independence.—"The Dutch Feeling Toward England," by Poulney Bigelow, in Harper's Magazine.

ATHLETE AND SCULPTOR.

A Tale of James E. Kelly's Powers, as Related by a Friend.

Although he is not large physically, several good stories are told about the prowess of James E. Kelly, the sculptor whose bronze statues of Molly Pitcher, General Buford at Gettysburg, "The Battle of Harlem Heights" and "Sheridan's Ride" have brought him fame. A friend of his said of him: "He has more courage to the square inch than any man of his size I know, and on several occasions he has been called upon to show it unexpectedly."

"One day an expressman, six feet high and strong in proportion, invaded his studio. The expressman had overcharged the sculptor, and the latter desired to refer the matter to the main office. When the irate expressman entered, it happened that a tall friend of the artist was visiting the studio. With an oath the expressman said that he had come for satisfaction."

"I intend to smash you to smithereens," he ejaculated, shaking his fist and advancing toward the sculptor.

"Do not wait a moment," answered Kelly.

"The big man sprang at the artist, and at this critical moment the tall form of the latter's friend vanished through the back door. Quick as a flash the sculptor jumped behind the enraged expressman, seized him by the back of the neck, and with all the strength he could summon pushed the burly fellow to the front door and kicked him into the street. It was all done so quickly that the bellicose intruder hardly knew how it happened. He fell on the sidewalk, and his face was bruised. He got up and ran away. The sculptor returned to his work, and after a few minutes his vanishing friend entered timidly from the rear."

"What have you done with that Goliath?" he asked. "You know I have heart trouble and cannot stand scenes, and so I went out to keep calm."

"Oh, there was no scene," replied the sculptor. "It was an act in three kicks and a push." His heart trouble friend to this day thinks the sculptor is a piece of surcharged dynamite.—New York Commercial.

Victim of Old Age.
The postoffice at Kaskaskia, Illinois, after doing business for two hundred years, has been discontinued. This is the oldest town in the state and the postoffice seemed to be a victim of old age. The Great Father of Waters is gradually washing away the site of what was once a pretty and prosperous town and little is left to mark the spot of early civilization there. Kaskaskia was the first capital of Illinois.
The indications point to a large attendance at the Lady Minstrels tonight, and from what has been learned all will be well entertained. The proceeds are for the benefit of the Seymour soldier boys in Cuba, and will be used to defray the expense of sending such articles to them as will add to their comfort and welfare. Attend tonight and contribute to the fund.

Gravel Road Letting.
Bartholomew county commissioners let seven contracts for gravel roads Thursday. The aggregate of the several contracts is \$18,950.50 and the amount of roads to be built is sixteen miles. William Shields and Byrnes & Isaacs, of this county, had bids in but got none of the contracts. Byrnes & Isaacs' bid on section seven was lower than that of Wright & Childers' who were awarded the contract. The awarding of this section may be contested.
A Spirited Chase.
Otis Mitchell gave Constable Douglas a little vigorous exercise this morning. Because of some domestic difficulties a warrant was issued for Mitchell's arrest and placed in Douglas' hands. The officer began to search for his man and finally caught sight of him over on Jeffersonville avenue. Mitchell sighted Douglas about the same time and started down the avenue at a two-forty gait. The constable gave chase but Mitchell was too swift for him and got away. He will probably not get far away.

Deafness Cannot Be Cured
By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

How to Prevent Pneumonia.
You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and la grippe. Every bottle warranted. For sale by C. W. Milhons.
Railroad Fares are Reasonable.
Legislatures in different States are from time to time urged to tinker with passenger tariffs on railways and enact a law compelling a general charge of two cents per mile. The current rate is three cents, but the average falls below that owing to concessions, granted for special occasions. Persons who appreciate the convenience and comforts provided by the railways will not consider a three-cent fare exorbitant. The present charge for a twenty mile ride on a railway will not pay for horse hire for such a trip, to say nothing of the time required for an overland journey and the discomforts of muddy roads and inclement weather.

Ourfew at Kokomo.
Following is a section from the Kokomo curfew ordinance that is calculated to cause trouble in the household:
It is provided that when a child comes home at the prescribed hour and finds its mother not present to hear its prayers and put it to bed it shall report such dereliction to the Mayor of the city, whose duty it shall be to search for the absent mother until found, and if it should be shown that the mother was not on an errand of necessity or mercy it shall be the duty of the Mayor to administer a reprimand to said mother, take her hand and place at the card table and proceed to finish the game. Should the Mayor, in his official function at the card table, win any favors, the same shall go to the child giving the information.
In Olden Times
People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system. Buy the genuine, made by the California Fig Syrup Co.

LaGrippe is Contagious.
Atmosphere Impregnated with Germs

Disease Proved Beyond Question to be Infectious—Is Rapidly Conquering the Country.

LaGrippe is a contagious disease. Its specific germ has been positively identified, and it is transmitted from person to person either by direct contact or by inhaling the germs while they float in the air. It is a dangerous disease, lowering the vitality and wasting the restive power so that pneumonia, heart disease, nervous prostration and in many cases easy victims. No specific is known that will kill the grip germ, but it may be driven out and its effects overcome by the prompt use of Dr. Miles' Restorative Nervine.

"La Grippe left my nervous system so racked and shattered that I could not sleep and for two months was under the influence of narcotics. Physicians and friends gave me up to die; but in two days after I commenced taking Dr. Miles' Restorative Nervine I began to improve, and in a month's time I was entirely cured. It is the greatest best restorer on earth."

BILL TO REIMBURSE

Officers and Men For Expenses While on Furlough.

MR. MCLEARY EXPLAINS

That It Is For Medical Attendance, Nursing and Supplies, Which the Government Would Have Paid For Had the Men Been Sent to a Hospital.

Washington, Jan. 20.—Representative McCleary of Minnesota, has introduced a bill authorizing the secretary of the treasury to reimburse officers and men of the army and navy who served in the war between the United States and Spain for necessary and reasonable expenses incurred while on leave or furlough for medical attendance, nursing and medical supplies necessitated by disabilities incurred through military or naval services in said war.

When seen last night, Mr. McCleary said: "I was prompted to introduce this bill by a feeling that equity demanded it. Numerous instances have come to my attention where men were sent home because sick and incapacitated for duty. The folks at home nursed them back to life and rejoiced in the opportunity of caring for their loved ones. But in many instances the expenses for medical attendance and supplies have been a charge that the family could ill afford.

"It seems only just and right that these expenses should be reimbursed by the government in whose service the disabilities were incurred. If the soldier had gone to a military hospital the charges would have been paid by the government under existing law. But there is no law authorizing the payment of such expenses for soldiers absent from their commands on sick leave or furlough. To grant this authorization is the purpose of the bill.

"In preparing the bill I consulted the assistant surgeon general and the auditor of the treasury for the war department in order that its provisions, while dealing justly and generously with the soldiers, should properly guard the public treasury. To this end it is provided that the reimbursement shall be made under rules and regulations to be prescribed by the treasury department, that the rates to be paid shall be those usual in the locality where the services have been rendered, and that to receive consideration claims must be presented within two years after the passage of the act."

FIFTY-FIFTH CONGRESS.

Debate on Expansion and Nicaragua Canal Continued.

Washington, Jan. 20.—In the senate yesterday Mr. Turner (Pop., Wash.) made a constitutional argument on the policy of expansion. At the conclusion of Mr. Turner's remarks Mr. Foraker explained at length statements made by him in a recent speech on the same subject. He said he had no intention or desire to pose as a representative of the administration. Referring to the interested comment which had been aroused in Great Britain by his statements, he said: "I was not speaking for the administration, and the chill that went up and down the backs of our friends in London was due, perhaps, to a misapprehension as to which of the Ohio senators was speaking."

The Nicaragua canal bill was then taken up and an amendment passed instructing the secretary to not pay out more than \$20,000,000 during any fiscal year for work on the canal.

The house yesterday practically decided the Brown-Swanson election case

Oh, what a warm welcome the little traveler whom Heaven guides to the door of a woman's heart receives from the happy mother! Every thought and care is given to the comfort and well-being of the new comer after it has entered into the portals of life and taken its place at the family fireside.

Yet during the time when baby is expected few women do all they should to insure the little one's constitution.

National strength and vigor. No mother wants to have a puny, weakly, sickly baby yet unless she herself is entirely healthy in the special, delicate structure which makes motherhood possible, the baby is certain to suffer in some way for her weakness or neglect.

The surest way to avoid this is for the mother to reinforce her own strength by the use of Dr. Pierce's Favorite Prescription. It will make her perfectly healthy. It will lighten and brighten the time of waiting. It will make the ordeal of motherhood absolutely safe and comparatively free from pain and will insure a strong, healthy constitution for the baby.

Mrs. Annie J. Taylor, of Loveland, Hill Co., Texas, says: "I am the mother of eight children. I suffered from female weakness. I tried physicians with no avail. When I last became pregnant I saw the advertisement of Dr. Pierce's Favorite Prescription. I bought two bottles and took according to directions. When baby was born I had a very easy time and have not suffered one hour since from female weakness. Baby is as fat and healthy as can be."

Prospective mothers should send to the World's Dispensary Medical Association, Buffalo, N. Y., for a copy of Dr. Pierce's Common Sense Medical Adviser, which will be sent free on receipt of 21 one-cent stamps to pay the cost of mailing only, or 31 stamps for cloth-bound copy.

from Virginia by declining to consider it, thus giving the seat to Mr. Swanson (Dem.), the sitting member. Consideration of the postal appropriation bill consumed the remainder of the day.

RELIEVED OF DUTY.

General Egan Served With Notice of the Order For His Courtmartial.

Washington, Jan. 20.—General Egan was served with legal notice of the ordering of a courtmartial for his trial just before the close of office hours yesterday. This notice was delivered by the messenger of the adjutant general in the usual course, and had the effect to relieve General Egan from duty as commissary general of the United States army, pending the conclusion of the courtmartial. The office was placed in charge of Lieutenant Colonel George B. Davis, who has been on duty there for some time as assistant to General Egan.

Press Dispatches Confirmed.

Washington, Jan. 20.—It was stated at the department of state that dispatches had been received from United States Consul Osborne at Apia, but as to their nature the officials had nothing to say beyond that they went to confirm the press dispatches printed yesterday. Admiral Kautz, the commander of the Pacific station, is now on board his flagship (the Philadelphia), and it was stated at the navy department that he would accompany that ship to Samoa.

Peace Treaty Conference.

Washington, Jan. 20.—The supporters of the peace treaty were in conference among themselves more or less of the time yesterday as to whether they should agree to accept the Bacon resolutions as a condition precedent to the ratification of the treaty. Before leaving the capitol last night, Senator Davis, in charge of the bill, told his friends that they would not agree to the passage of the resolutions.

THE PHILADELPHIA

Sent to Samoa and the Newark to the Pacific Station.

Washington, Jan. 20.—Orders have been sent from the navy department to have the cruiser Newark start with dispatches from the New York navy yard for the Pacific station via the straits of Magellan. The Newark is a powerful protected cruiser of about the same type and power as the Philadelphia, whose place she will take on the station, the Philadelphia going to Samoa. The latter vessel is now at San Diego, Cal., and will not be ordered north to Mare Island, but to save time will take on a supply of coal at San Diego and start at once for Samoa.

Has Received No Orders.

San Diego, Cal., Jan. 20.—Admiral Kautz landed yesterday at Coronado from the Philadelphia and was shown the dispatch ordering his vessel to Samoa. He said no such orders had yet reached him, and that if they did it was doubtful if the vessel would be sent on a long voyage in view of her present condition, which he would make known to the department.

Market Garden of the World.

Washington, Jan. 20.—General Wood before the senate military committee yesterday, replying to a question from Senator Proctor, said that it was feasible to construct a railroad line between Santiago and Havana and that a Santiago firm had agreed to guarantee the funds for the enterprise. He spoke at considerable length in this connection in regard to the resources of Cuba, saying that it could be made the market garden of the world. He thought that this government should grow there the vegetables used by the army in Cuba, and said he meant to confer with the secretary of agriculture on this question. General Wood also expressed the opinion that the native Cubans might be used to an extent as soldiers in the United States army.

Holy Cross College.

Washington, Jan. 20.—Ground has been broken for the foundation of the Holy Cross college to be erected by the Very Rev. Dr. Zahn, provincial of the congregation of the Holy Cross, on land adjoining the Catholic University. The college, in point of architectural beauty, will compare favorably with many of the beautiful buildings for which Washington is noted. The exterior will be of Indiana limestone and Vermont granite. The college will be ready for dedication by October.

River and Harbor Bill.

Washington, Jan. 20.—The river and harbor bill is approaching completion and will probably be given to the public on Saturday of Monday. The members of the committee are guarding their work with unusual secrecy to prevent premature publication of the important items and thus far have been successful. The amount carried by the bill will be about \$13,000,000.

Minister A. C. Harris.

Washington, Jan. 20.—Addison C. Harris, the new minister to Austria-Hungary, called at the state department yesterday, accompanied by Senator Fairbanks and H. H. Hanna. He saw Secretary Hay and discussed his departure. Mr. Harris expects to go abroad in a fortnight. He will return to Indiana today.

RIOT IN A SALOON

Two Soldiers Seriously Wounded and the Barkeeper Fatally.

Chattanooga, Jan. 20.—A bloody riot occurred last night in a negro saloon between the barkeepers and waiters and several negro soldiers of the Eighth United States volunteer infantry now in camp at Chickamauga. A quarrel arose over a matter of change, when the soldier pulled a pistol and fired at the waiter. The barkeeper and several others in the saloon opened fire on the soldiers and, as a result, Sergeant J. L.

TURF MEN

Largest Trotting Circuit Ever Completed in the West Is Formed.

Chicago, Jan. 20.—The largest trotting circuit ever formed in the west was completed at a meeting of turfmen here yesterday. It is an outgrowth of the Great Western circuit, which sprung up last year, and includes all the big racing associations of the middle west, besides several cities of the Grand circuit.

The important action taken in the meeting were the admissions of Chicago and Peoria, Terre Haute, Louisville and Lexington and four cities of the Grand circuit. The union of these cities with the old members of the Great Western circuit makes the largest continuous circuit in the country.

FEARED THE LEXOW

Clerk of a St. Louis Court Short \$30,000 Disappears.

St. Louis, Jan. 20.—Albert J. Wagenman, clerk of the court of criminal correction, has disappeared and it is said by his intimate friends that he has confessed to a subversion of witness and jurors fees to the amount of \$30,000. The missing man's friends fear he has committed suicide. Wagenman has filled one term as clerk of the court of criminal correction and was re-elected to the office last fall. Ever since the proposition to institute a Lexow committee and investigate the city affairs of St. Louis was made some weeks ago, Wagenman's friends have noticed that he seemed downcast and depressed.

SANTIAGO CUSTOMS

Governor General Brooke Issues an Order That May Cause Trouble.

ORDER NOT MADE PUBLIC

For Fear of a Renewal of Popular Excitement—All Sanitary Work Done in Santiago Must Be Without Money Pay, and For Rations Merely—Better Class of People Worried.

Santiago de Cuba, Jan. 20.—United States military authorities in Havana have cabled the Santiago department an order directing that not a cent of the customs receipts of the department is to be expended without the permission of Governor General Brooke. The order also directs that the greater part of the sanitary work performed shall be done without money pay and for rations merely.

The directions regarding the customs funds have not yet been made generally known. As most people, relying upon a recent dispatch from Dr. Joaquin Castillo, now in Washington, have regarded this point as definitely settled in favor of Santiago, it has been considered advisable thus far not to allow the order in question to become public, lest there be a renewal of the popular excitement provoked by the issuance of the original order for the concentration of customs at Havana.

Intelligent Cubans, who are in possession of the facts, however, are greatly worried over the situation, as are also the Americans, for this and other recent orders virtually reduce the military governor of the department to a mere automaton.

Such a policy as is now suggested, regarding the work of sanitation, might have been applicable in July and August last, but is certainly not under the changed conditions today.

Very likely the sanitary conditions at Havana now resemble those of Santiago then. In any event, letters and dispatches received from the capital show dense ignorance regarding the province.

SEVEN MEN

Imprisoned and Tortured to Shield Dishonest Spanish Officers.

Havana, Jan. 20.—The American board of pardons has recommended the release from jail of seven men who have been confined here without trial since 1897 for the alleged robbery from a safe of funds belonging to the navy paymaster for San Juan de Porto Rico. The prisoners declare, and information from San Juan tends to sustain them, that the alleged robbery was a plot upon the part of Spanish officials to cover up their delinquency and to obtain scapegoats for the Spanish paymaster at San Juan, who, it is further asserted, was probably a party to the dishonesty in appropriating the funds. Following the disappearance of the money at San Juan, some 200 suspects were arrested and they were all released except seven, who were tortured for the purpose of obtaining a confession and were shipped to Havana in March, 1897. They now show the effects of the torture upon them.

Conferring With Apostolic Delegates.

San Juan de Porto Rico, Jan. 20.—The Roman Catholic clergy and teaching orders are conferring with Archbishop Chappelle, apostolic delegate to the West Indies, concerning the title to certain property claimed by the military and insular authorities. They assert that under article 8 of the treaty of peace between the United States and Spain, church and school property is protected. Recently, however, one of the Roman Catholic teaching orders was ejected from a building in San Juan.

Universal Indignation.

London, Jan. 20.—The Madrid correspondent of The Daily Chronicle says: "The constitutional guarantees have been virtually suspended against Carlism. A Carlism propagandist, who was carrying documents from headquarters, has been arrested in Valencia. Senor Sagasta's determination to adhere to his tottering power causes universal indignation unequalled since the capture of Santiago."

Russia's Idea of Disarmament.

St. Petersburg, Jan. 20.—The Russian government has ordered a new cruiser of 6,250 tons, to be constructed at the Vulcan shipbuilding yards, Stettin, Prussia. It has also been decided to build in Russian yards three battleships of about 13,000 tons each and two cruisers of 6,000 and 8,000 tons, respectively. Numerous torpedo boats are now in course of construction under government orders.

MRS. ANNIE E. GEORGE

Indicted For Murder in First Degree For Killing George D. Saxton.

Canton, O., Jan. 20.—The grand jury yesterday returned a true bill against Mrs. Annie E. George for murdering George D. Saxton last October. The indictment is for the first degree and the penalty is death by electrocution. Saxton was a brother of Mrs. William McKinley. The president and Mrs. McKinley were called to Canton for the funeral of Saxton. Of course, all the proceedings of the grand jury were secret. At the coroner's inquest it developed that no one saw the shooting, but circumstantial evidence indicated that on the night of Oct. 7 Saxton was shot as he was about to enter the residence of Mrs. Eva A. Aldhouse, widow of the late George Aldhouse. Five shots were fired, three taking effect. Saxton died before any physician could reach him. It developed that Saxton had transferred his affections from Mrs. George to Mrs. Aldhouse. Mrs. George and her husband separated because of Saxton.

A GOOD SUBJECT

Remarkable Experience of a Hypnotized Man at Independence, Kan. Independence, Kan., Jan. 20.—A strange case of hypnotism has occurred here that is attracting a great deal of attention. Professor Elmer E. Knowles, while giving an entertainment in the opera house here, offered to put any person to sleep for 48 hours. No one could be found who was willing, but one volunteered for 24 hours. He was put to sleep Monday night. All that night and next day he slept soundly and could not be aroused. Wednesday Knowles was taken sick, and many feared that he would lose his hypnotic powers and not be able to bring the young man to a conscious state again. At the first attempt he failed, but Thursday morning he was successful in awakening the subject. The awakening was violent, it taking five men to hold the subject for a few seconds during the change from the hypnotic state. During all this time Knowles retained a complete control over the subject.

GRAINMEN ARRESTED

President of the Kansas City Board of Trade Among the Number.

Kansas City, Jan. 20.—Grainmen, bucketshop and dynamite shopkeepers generally to the number of 17 were arrested by the police yesterday under the new antipoolroom law. Included among them was John W. Moore, president of the board of trade. The arrests were made on warrants issued by D. A. Brown, city attorney, under the section of the law prohibiting betting on any "event," the attorney holding that buying and selling on margin brought the grainmen under the law.

The list of firms on which warrants have been served includes some of the best known grain firms in the city, some of whom have been doing business for years.

KLONDIKE NEWS

Sixty Men With \$400,000 in Dust. Typhoid at Dawson.

Victoria, B. C., Jan. 20.—The steamer Danube has arrived from the north, bringing about 60 men from Dawson and Atlin, with about \$400,000 in gold dust. The Dawson men say the Upper Dominion creek is panning out well, running from \$2.50 to \$4 a pan. There are still 15 tons of Canadian and American mail at Tagish waiting to be forwarded. A great deal of typhoid fever is reported at Dawson, some say fully 800 cases. Seven men have been frozen to death in the Klondike this winter.

The trail to Atlin is reported in good shape. Returning miners unhesitatingly condemn the alien exclusion act, saying it will retard the development of the country for generations.

KILLED HIS WIFE

And Took His Own Life by Shooting Himself With a Shotgun.

Seattle, Wash., Jan. 20.—David Williams, ex-surveyor of Kitsap county, shot and killed his wife and then committed suicide yesterday at his home near Silverdale. The only cause that can be assigned is insanity. Williams shot his own life Williams shot himself three times with a shotgun. Two hours elapsed between the first and third shots.

MAYOR TAGGART

Gives Up All Hope of Seeing His Daughter Alive.

Scranton, Miss., Jan. 20.—The tug Leo returned yesterday from Chandeloe island, not having obtained any tidings of the Paul Jones. The story that crew and passengers of the Paul Jones stopped at Chandeloe island is without foundation. Mr. Taggart has given up all hope of seeing his daughter alive.

Cashier Dorsey Found Guilty.

Omaha, Jan. 20.—Frank M. Dorsey, formerly cashier of the failed First National Bank of Ponca, Neb., was found guilty in the federal court yesterday on 13 counts, charging him with making false reports to the controller, misappropriation of the bank's funds and other irregularities. He is a brother of ex-Congressman George W. O. Dorsey, who was president of the bank, and was tried and acquitted of complicity in the failure.

Fitz Will Waive a Finish Fight.

Toledo, Jan. 20.—Robert Fitzsimmons last night issued a statement scoring O'Rourke and Sharkey and offering to arrange a match with the latter if he will sign articles within two weeks. He waives a finish fight, but will insist on 25 rounds or more.

Victim of Old Age.

The postoffice at Kaskaskia, Illinois, after doing business for two hundred years, has been discontinued. This is the oldest town in the state and the postoffice seemed to be a victim of old age. The Great Father of Waters is gradually washing away the site of what was once a pretty and prosperous town and little is left to mark the spot of early civilization there. Kaskaskia was the first capital of Illinois.

The indications point to a large attendance at the Lady Minstrels tonight, and from what has been learned all will be well entertained. The proceeds are for the benefit of the Seymour soldier boys in Cuba, and will be used to defray the expense of sending such articles to them as will add to their comfort and welfare. Ourfew at Kokomo.

Following is a section from the Kokomo curfew ordinance that is calculated to cause trouble in the household:

It is provided that when a child comes home at the prescribed hour and finds its mother not present to hear its prayers and put it to bed it shall report such dereliction to the Mayor of the city, whose duty it shall be to search for the absent mother until found, and if it should be shown that the mother was not on an errand of necessity or mercy it shall be the duty of the Mayor to administer a reprimand to said mother, take her hand and place at the card table and proceed to finish the game. Should the Mayor, in his official function at the card table, win any favors, the same shall go to the child giving the information.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system. Buy the genuine, made by the California Fig Syrup Co.

A Spirited Chase.

Otis Mitchell gave Constable Douglas a little vigorous exercise this morning. Because of some domestic difficulties a warrant was issued for Mitchell's arrest and placed in Douglas' hands. The officer began to search for his man and finally caught sight of him over on Jeffersonville avenue. Mitchell sighted Douglas about the same time and started down the avenue at a two-forty gait. The constable gave chase but Mitchell was too swift for him and got away. He will probably not get far away.

The Boys Were Out Too Late.

Last night Policeman Hopewell arrested John Roerick and Ballow Goss for violating the curfew ordinance. They were brought before Mayor Mills this afternoon, found guilty and fined one dollar each.

Deafness Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars; free.

How to Prevent Pneumonia.

You are perhaps aware that pneumonia always results from a cold or from an attack of la grippe. During the epidemic of la grippe a few years ago when so many cases resulted in pneumonia, it was observed that the attack was never followed by that disease when Chamberlain's Cough Remedy was used. It counteracts any tendency of a cold or la grippe to result in that dangerous disease. It is the best remedy in the world for bad colds and la grippe. Every bottle warranted. For sale by C. W. Milhous.

Railroad Fares are Reasonable.

Legislatures in different States are from time to time urged to tinker with passenger tariffs on railways and enact a law compelling a general charge of two cents per mile. The current rate is three cents, but the average falls below that owing to concessions, granted for special occasions. Persons who appreciate the convenience and comforts provided by the railways will not consider a three-cent fare exorbitant. The present charge for a twenty mile ride on a railway will not pay for horse hire for such a trip, to say nothing of the time required for an overland journey and the discomforts of muddy roads and inclement weather.
